Summary

With 2 years and 4 months of experience as a Frontend Developer, I specialize in building high-performance, user-friendly applications. I am proficient in Vue.js (versions 2 & 3), React, React Native, and Tailwind CSS, with a strong ability to translate client requirements into polished digital experiences. Additionally, I have expertise in Node.js, allowing me to contribute to full-stack development when needed. Skilled in Git/version control, I thrive in collaborative environments, ensuring seamless teamwork and efficient development processes.

Education

Amal Jyothi College of Engineering <i>B.E in Information Technology</i>	May 2022
St. Pius X English School (ISC) <i>Higher Secondary Education</i>	May 2018
St. Pius X English School (ICSE) <i>Secondary Education</i>	May 2016
